		15% Milestone #5: Final Report	12-Dec

_____ / **20 - Scaled to 1%, 1%, and 5%**

_____ / 1 – Concise, professional language throughout*

_____ / 1 – Organized presentation throughout*

_____ / 1 – Includes Title page and Table of Contents

_____ / 2 – Summary

_____ / 1 – covers all major elements of proposal

_____ / 1 – effectively summarizes*

_____ / 3 – Introduction

_____ / 1 – brief statement of purpose

_____ / 1 – list of proposed tasks

_____ / 1 – summarizes the remainder of the proposal

_____ / 2 – Background

_____ / 1 – summarize background of the problem*

_____ / 1 – includes introduction to previous/existing solutions

_____ / 4 – Proposed Tasks

_____ / 1 – discusses data collection

_____ / 1 – discusses data cleaning

_____ / 1 – discusses proposed modeling technique(s)

_____ / 1 – justifies choices/methods

_____ / 3 – Schedule and Qualifications

_____ / 1 – includes detailed discussion of time-line of proposed tasks

_____ / 1 – includes bar/Gantt chart and/or table of scheduled tasks

_____ / 1 – discusses qualifications the proposer possesses and/or lacks

_____ / 3 – Conclusions

_____ / 1 – reiterates proposal summary

_____ / 1 – re-affirm why your proposal should be chosen

_____ / 1 – discusses the benefits of choosing this proposal

*Criteria for grading:

- The report is accurate and detailed, clear in meaning and complete
- The content is structured in a logical order.
- The report is written in a relevant format, including section headings.
- Any technical terms are defined clearly.
- Sources should be referenced accurately and in a consistent format.
- Avoid long, complicated sentences and use active voice whenever possible.
- Support statements with verifiable facts and research, not opinion or feelings.
- Use short, clear statements to make your point. Long sentences are often confusing.
- Avoid acronyms that might cause confusion.
- The report should be carefully proofread.
